

Seasonal Outerwear *collection*

An overcoat or coat can quickly become a man's most trusted and treasured garment. Often being the most visible item of any look, the perfect balance (for you!) in terms of practicality and style can easily translate to a sartorial confidence boost. Make your statement while keeping warm this winter in one of your six new suave seasonal (over)coat fabrics.

New improvement and design options from this season onwards:

- . **Double-breasted peak lapel:** to give your overcoat a more luxurious, sartorial look.
- . **Classic collar shape** (available from October): allowing for more room to wear with a scarf, your new coat collar will be dubbed 'standard (new)' and your existing collar 'slim'.
- . **Improvement:** improved collar fusing, providing slightly more body for an extra clean shape.

Protect yourself

OCS0111 with lining CCL005 & DCC1005

from the elements

Increase the versatility of your coat by adding a detachable liner: insulated with 100% recycled 'down', made from recycled plastic bottles to perfectly mimic the feel and function of real feathers.

How to layer this winter?

If dressing for winter were a mantra, we think it'd be simple: 'layers, layers and more layers'. But what to layer and how? Thankfully, more than ever, the choice is truly yours. Help your customers exercise their sartorial freedom — and brush up on their seasonal style — with these three winter layering ideas.

Make it classy

Add a luxurious, double-breasted overcoat with peak lapels to your 2-piece suit and white Oxford button-up, finished with dark-coloured silk tie. Complete the look with a scarf in cashmere & wool to protect your neck from the elements.

Overcoat: OCS0109
2.5 button jacket: 5732
Shirt: SH00141
Tie: TS730
Trousers: 5732
Shoes: SDE06
Scarf: K10035
